Individual Plan
of training a clinical intern

1. Surname, name, patronymic _____

2.(Speciality in which the training is held) _____

3. Registered senior leader _____

(surname, name, patronymic)

(post, academic degree and status)

4. Determined term of training

Beginning: «__» _____ 20__

Termination : «__» _____ 20__

LIST

of adjacent subjects necessary for obligatory study by a clinical intern
training in specialities

Main speciality	Adjacent specialities
Inner diseases	Phthysiology, infectious diseases
Professional pathology	Phthysiology, toxicology, dermatology
Children's diseases	Children's infectious diseases
Children's infectious diseases	Children's diseases, diseases of ear, throat and nose
Surgery	Urology, traumatology, operative surgery and topographic anatomy
Children's surgery	Orthopaedy, operative surgery and topographic anatomy
Orthopaedy and traumatology	General surgery, tuberculosis
Urology	Operative surgery and topographic anatomy
Obstetrics and gynecology	Urology, operative surgery and topographic anatomy, study of questions of toxoplasmosis
Anesthesiology	General surgery, children's surgery, urology, obstetrics and gynecology, diseases of ear, throat and nose
Nervous diseases	Psychiatry
Psychiatry	Nervous diseases
Infectious diseases	Urgent therapy ,children's infectious diseases
Skin and venereal diseases	Infectious diseases Inner diseases, infectious diseases
Phthysiology Phthysiosurgery	Surgery, pulmonology, operative surgery and topographic anatomy
Ear diseases	Operative surgery and topographic anatomy
Diseases of ear, throat and nose	Infectious diseases, operative surgery and topographic anatomy
Rontgenology	Radiology
Radiology	Rontgenology
Medical control and therapeutic physical training	Inner diseases, normal physiology
Therapeutic stomatology	Surgical stomatology
Surgical stomatology	Operative surgery and topographic anatomy, orthopedic stomatology
Orthopaedic stomatology	Therapeutic stomatology

Curriculum

of training a clinical intern of the 1st year of study

Chair _____ in 20__/20__ academic year

Specialities (to indicate all adjacent subjects and cycles)	Volume in time	Term of study	Place of study	Estimation and control execution

Curriculum

of training a clinical intern in adjacent subjects of the 1st year of study

Chair _____ in 20__/20__ academic year

Name of a subject	Volume in time	Place of study	Estimation and control execution
Clinical microbiology			
Clinical Biochemistry			
Clinical pharmacology			

Plan

of the 1st year of training

Directions
in composition of an individual plan of training a clinical intern

1. Plan is worked out by a clinical intern for two years, during a month from the day of entering, under the guidance of the head of a chair and a registered senior leader (professor's assistant of a chair), approved by a prorector in the scientific work of the institute.

Plan is worked out in duplicate from which copy №1 is directed to the department of science of the institute in (to a personal file of a clinical intern), copy №2 is kept in files of a chair.

2. Planned terms of training are put in a plan of the 1st and 2nd years in the beginning of training a clinical intern.

3. Estimation of tests is put down with signatures of the head of a chair in copy №2 of the plan.

4. In issue V «Other kinds of work» they plan participation of a clinical intern (at the discretion of the head of a chair) in the educational work of a chair, etc.
