

**Values of National Pirogov Memorial Medical University, Vinnytsya
directly resonate with
the values of Magna Charta Universitatum 2020:**

Unity of science and learning

In the university, teaching and research are harmoniously combined, new competencies in education applicants are formed for scientific work of research and innovative nature in the field of health care, their training demonstrates a high degree of autonomy, logic and scientific research methodology.

Humanism

The university spreads the principle of humanism, recognizes the value of a human, protects a human and humanity, defends human dignity, rights and freedoms, regardless of age, gender, social status, ethnic origin, religion or atheistic beliefs.

Democracy

The university forms an environment built on the principles of individual autonomy and equal rights in the university, to influence decisions in society, in the country.

National and cultural consciousness

The university community is aware of the importance of preserving national and cultural values, which were formed over decades by the Ukrainian nation, people of different cultures and origins, who implement cultural and scientific projects aimed at preserving Ukraine's rich historical, art heritage and spiritual traditions.

Quality

The University initiates, improves and adheres to best practices in educational and scientific activities. The university takes all measures to achieve zero tolerance for academic dishonesty and any manifestations of corrupt behavior. Trust, honesty, justice - forms the culture of quality of higher education.

Leadership

The university dynamically teaches and supports personal leadership, responsibility and a sense of duty. The university assumes social responsibility for the development of Ukrainian education and science in the field of health care.

Professionalism

We create the conditions and nurture the necessary qualities for creative activity, self-improvement and self-development. We produce new creative ideas and solutions, implement innovations, train professionals who have the ability to be flexible, creative and adapted to the globalized and changing labor market.

Public position

The university community works for the development of the community, proposes and initiates changes aimed at its development, defends its right to its own opinion, the right to a critical attitude to established views and beliefs for the development of the city and the country.
